

# EXOSkin Cream Serum

Damage skin, uneven, presence of wrinkles and sagginess

Ref. F02052-01.01 + F02051-01.01

Updated in February 2024

Two textures in one delivery system that improve V-shape, facial symmetry and skin density and firmness.

Over time the skin tends to look slack, less toned and less firm. This is the result of a slow, gradual aging process, where the skin's connective tissue becomes increasingly degenerated, and the contour of the face is less defined, skin is lacking tone and elasticity. Consequently, fighting against free radicals and firming tissues are essential gestures for vital, radiance, healthy skin.

A delivery system that allows the two textures working together: oily, anti-oxidant rich serum and a lightweight cream with powerful, innovative anti-ageing active ingredients.

Serum: created with **Astaxanthin**, able to increase skin moisture, elasticity, as well as promote skin smoothness, decreasing fine lines and wrinkles. It has also UV-blocking properties, which helps to assist the skin in protecting itself against sun-related damage such as dark spots on your skin. **Jojoba, Baobab, Plantasens Abyssinian, Refined Prairie Pearl Oils** to nourish and moisturize skin in depth.

Cream: created with **Patented extraction of Goji** with proven efficacy on boosting exosomes production, with results on extra cellular matrix for an increase production of collagen and elastin. Therefore, there is a reduction of wrinkle appearance, less sagging and thus an improved V-shaped face together with an improvement of skin density in photo-aged skin. **GoldenPhi**: patented Biotechnological extract obtained from a Bacillus species from Florida Keys tested to boost telocytes and protect from psychological stress effects. As a result: reduction of chin contour area to generate a lifting effect, improvement of facial symmetry in the oval contour and overall skin firmness, better skin luminosity for an even complexion. Face proportions closer to the Phi ratio. **Sodium Hyaluronate**, skin revitalizer, well known for its ability to absorb and hold water, to deeply hydrate and moisturize the skin.

Press the pump, mix both phases in your palms and apply on face neck and décolleté, morning and before sleeping.

## Main Features

- Global anti-ageing
- Moisturize
- Lifting and firming effect
- Improvement of oval contour
- Wrinkles reduction
- Two in one formula

## Technical information

Cocoa Butter Esters –cushioning feel and long-lasting hydration –in the cream

93% ISO 16128 cream  
79% ISO 16128 serum

## Cosmetic regulations

USA  EU  CHINA
