

Beauty Tonic

Description

An energy booster proposed in an unusual pack, to distribute the product and guarantee the perfect homogeneity and functionality of its assets. On the one hand a veil of softness; This apparently full-bodied cream, once applied to the skin, leaves the sensation of a soft and airy veil, which provides nourishment and hydration at the same time.

On the opposite side a particular texture, in a pastel green color, with precious glitter inside for an illuminating effect. Enriched with an active booster, designed to give it energy and make the skin shine with new vitality, it becomes a perfect combo, which combines the performance of makeup with the action of its active ingredients.

Application

Dispense the product from its handy syringe pack. Thanks to the practicality of the pack it is possible to dispense the correct quantity of cream and serum, so as to create the perfect mix. Spread on the face with soft circular movements, until completely absorbed. Proceed with normal makeup treatments, or leave to act as a night treatment.

AP

ENER-GY PLUS, supports cell vitality thanks to its specific efficacy. The result is an increase in the elasticity, uniformity, hydration and luminosity of the skin.

CYTOFRUIT, thanks to its antioxidant properties, is able to protect cell membranes from oxidative damage and promotes cell renewal.
