

DACHSER at the CosmeticBusiness 2024 in Munich

The industry solution DACHSER Cosmetics Logistics will be taking part in CosmeticBusiness, an international supplier trade fair for the cosmetics industry, on June 5 and 6 at the MOC Event and Order Center in Munich. The logistics service provider will be presenting its customized transport and logistics services for the cosmetics industry at Stand 09 in Hall 3. This is DACHSER's second time at the trade fair.

DACHSER Cosmetics Logistics will be presenting its customized transport and logistics services for the cosmetics industry at CosmeticBusiness for the second time.

Around 400 exhibitors from more than 20 countries will be presenting their products, trends and innovations on an area of over 11,000 m² under the motto "Where Beauty Starts" at the largest meeting place for the cosmetics industry in Germany. "We are looking forward to meeting interested visitors in Munich and presenting our customized services to them," says Bruno Guillard, Department Head DACHSER Cosmetics Logistics. "Alongside France, Germany is one of the most important growth markets for DACHSER Cosmetics Logistics," adds Daniela Wollmann, Corporate Business Development Manager DACHSER Cosmetics Logistics.

Diverse solutions with the highest quality

The options offered by DACHSER Cosmetics Logistics include a wide selection of value-added services: specific delivery services, delivery planning and returns management in transport, special packaging solutions, inventory monitoring and replenishment management in warehousing, and much more.

Within the industry solution, all processes along the supply chain are digitally controlled and documented in real time. Safety and security are at the top of the

priority list. For example, exclusive cosmetic products can be specially protected in their own secure storage facilities. . A policy of sealing and regularly checking the vehicles as well as using digital video surveillance provides the appropriate level of security.

DACHSER Cosmetics Logistics has access to a strong global network that provides customers with uncomplicated access to all European markets and key markets worldwide.
