

SHOWCASES

DISPLAY YOUR PRODUCT
AND YOUR COLLECTION

Just according to your measurements we will create your best showcase!

ABOUT US

For the last 30 years, Ševa has been a professional manufacturer of equipment for the promotion of communication. We have invested our whole energy to a certain goal:
How can your information be presented in an effective, aesthetically pleasing and cost effective way?

To achieve this goal, we have always had excellent communication with our clients. For you, our team has developed a lot of new technical solutions and we checked them in practice.

When, after 30 years we look back, we have:

- more than a thousand quality finished projects behind us;
- over a thousand happy clients beside us.

YOU ARE IN FRONT OF US!

We make elegant and practical showcases. In them you will display your exhibit, use them with ease, and they will be a decoration in your showroom. All special, nonstandard showcases are result of joint work between our team and customer.

For the right showcases adapted to your showpieces, tell us your wishes, and we will make it. Even a dreamy showcase, for your and our delight.

For the production of showcases we have a big selection of aluminium profiles and connectors in stock, so we can make every showcase that you require.

Standard characteristics of showcases:

Construction is made of silver matt anodized aluminium profiles;
Connectors are made of metal;
All sides and shelves are made out of glass;
Glass doors can be sliding or with hinges; and with lock and key;
They have adjustable legs.

Additional features for an individual selection:

Specific dimensions
Specific colour of aluminium profiles
Different kinds of visible connectors
Storage with a key
Laminated, tempered or acrylic glass
Central light, LED strips or spot lights
Extra shelves
Branding of the showcase
Wheels for easy move

The best display case exactly according to your measurements!

SHALLOW SHOWCASES - FOR YOUR COLLECTION

Shallow showcases are our specialty. We make them in several different depths (usual depths are 32, 40, 60, 80, and 100mm). For shallow showcases we recommend sliding doors.

We are proud of our portable, two-sided shallow showcase. Total depth is 70mm and has portable stand and sliding door.

STANDARD SHOWCASES

SHOWCASES - PEDESTALS WITH GLASS BELL

Standard, economical execution of this showcase consists of pedestal made of wooden plate and adequate dimensions glass bell. Additional equipment consists of pedestal constructed of aluminum profiles or specific colour selection, lock with a key, alarm, different LED lights, as well as branding.

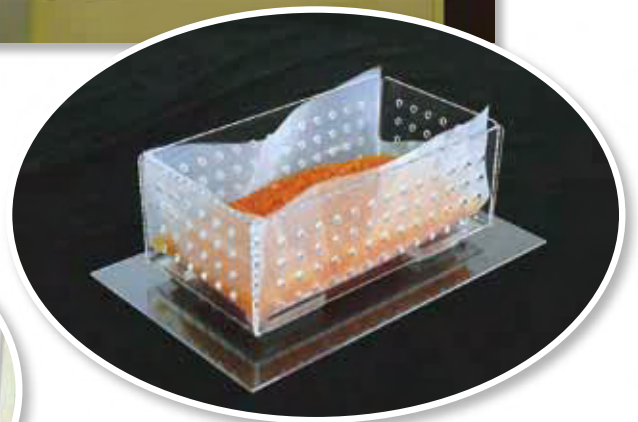

The best display case exactly according to your measurements!

SPECIAL SHOWCASES

SHOWCASES WITH CONTROLLED ATMOSPHERE

From outside you cannot see specialty of this model. Showcase is completely built according to the instructions of Central Institute for Conservation in Belgrade. Display part consists of glass bell which is glued with UV glue. Technical part of the showcase is made of non-emitting materials. All elements are closed with special silicone seals. Source of LED lights is located in upper technical part, in the bottom part silica gel is placed and/or active charcoal which further protect the showpiece from outside influence.

SPECIAL SHOWCASES

These special showcases are made for the exhibition of the ethnographic artefacts in Museum of Vojvodina. Autor and constructor is Sc. Eng. Arch. Dragan Radovanović.

EXHIBITION BOARD

MAGNETIC EXHIBITION BOARD

Magnetic exhibition boards - powder coated steel board is used as base for efficient hanging of thin showpieces (plans, documents and photos). The particularity of this system is individually tailored pocket for each showpiece, as well as choice of frame specific colour.

Archive of Yugoslavia, Belgrade

The best display case exactly according to your measurements!

EXHIBITION BOARD

For company from Novi Sad, NS ČAJEVAC, we made special trade fair display for their products. Requirements: each product needs to have an individual carrier, that overview of selected products is simple and clear, that every piece can be show to client and than put back to the display.

EXHIBITION BOARD - ART SCHOOL

Sports centre NOVI BEOGRAD creatively used our blue magnetic exhibition board to display artwork from the students.

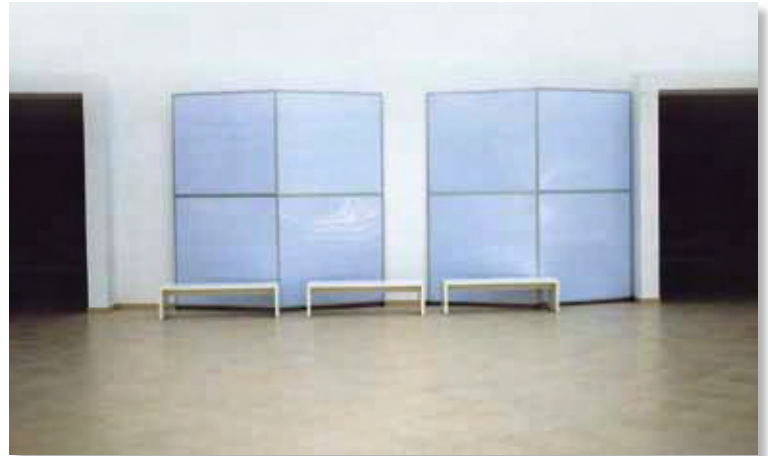

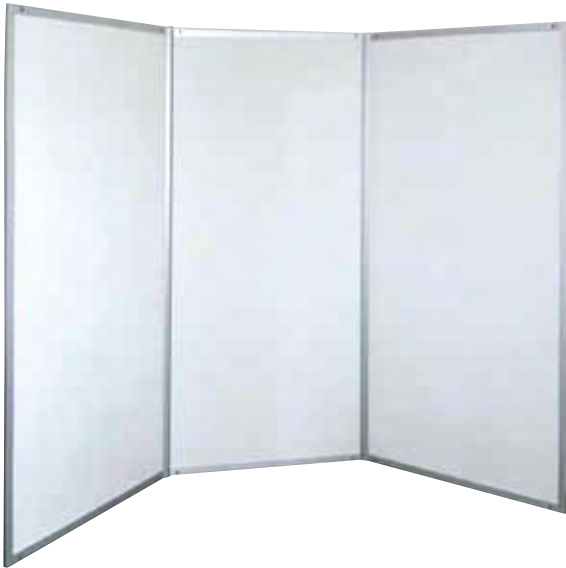

EXHIBITION BOARD

STANDARD EXHIBITION BOARDS - SCREENS

For low budget exhibitions we use our standard profiles with different mounting angles (90*, 120*, 135*, 180*, and 225*). With these profiles exhibition boards are quickly installed and removed, easy to transport and they can be used for a long time. Dimensions, specific colour and type of inserts are arranged with client.
